PROJECT TITLE : DATALIXLAB IT SOLUTIONS

1. DESCRIPTION :

DatalixLab is a IT Company Which provide you various types of products and services which solve real world problems . It's a company which convert your idea into reality. DatalixLab IT Solutions provides IT Consultancy, software design and development as well as professional services and maintenance.

2. FUNCTIONALITY :

- HOME :

  A home page is the primary web page that a visitor will view when they navigate to a website via a search engine, and it may also function as a landing page to attract visitors.. In some cases, the home page is a site directory, particularly when a website has multiple home pages.

- ABOUT :

  In About page hear we describe how the company is work on your new ideas , concepts. Start from design, development and deployment/manufacture. Our excellent products and services will upgrade your business to next level of technological revolution.

- SERVICES :

  Hear we describe Various types of services which provides by the company for grow your business. The services is like this analysis and integration , software development , product development and management , mechanical design (2D/3D) , web development , CAM programming , software automation , blockchain development etc.

- PRODUCTS :

  Hear we show you various types of Products which developed by a company which helps you to find a right products which you need. The products is various sectors like Educations , Health , Retail , Auto Solutions and many more .

- TEAM :

  The Details of the team like Chief Executive Officer , Chief Technology Officer ,Product Manager are available in team section .

- CONTACT :

  Contact page is Basically for Contact the company for take services and buy products. Client fill contact form and contact the company .

- JOIN US :

  Join us page is for candidate who want to connect the company and work with us.

3. Tools / Technology used :

Technology :

- HTML
- CSS
- Javascript

Tools :

- Visual Studio Code
- Google Chrome Browser

Platform :

- Local Computer

4. CODE
